Dentists by county (per 100,000 residents)	2	10.0	41.4	24.1%	85

## Family & Community

Reported child abuse cases	264	6.3%	4.6%	137.7%	76
Commitment to state custody (per 1,000 children)	28	6.0	2.8	215.5%	79
Remaining in state custody (per 1,000 children)	54	11.7	5.3	220.2%	86
Juvenile court referrals	173	4.1%	1.8%	231.3%	88
Recorded marriages (per 1,000 residents)	140	6.9	6.6	105.1%	34
Recorded divorces (per 1,000 residents)	81	4.0	3.2	125.4%	74
Young driver accidents (percent of age 15-24 driver's licenses)	65	3.8%	12.3%	31.1%	8
Regulated child care spaces (percent of children age 0 to 12)	339	11.6%	28.9%	40.0%	88
Child care assistance (per 1,000 children age 0 to 12)	16	5.5	24.9	21.9%	22

# Union

## Overall

At 68th, Union County is in the bottom half of Tennessee counties in child well-being. The county's strongest area was Economic Well-Being.

## Strengths

Union's strongest indicator is the percent of households in the county experiencing a severe housing cost burden, where the county ranks 7th. The county also performs well in the percent of chronic absenteeism among public school students at 13.2%.

## Opportunities

The county's biggest challenge is the percent of students who scored "On Track" or "Mastered" in TCAP Math, where it ranks 92nd. There are opportunities for improvement in the percent of students who scored "On Track" or "Mastered" in TCAP Reading as well.

## Policy/Practice/Program Options to Improve Outcomes

Many of these policies have multiple models for delivery, including public-private partnership, non-profit partners and community engagement.

Expanding pre-K access, allowing early assessment of reading skills coupled with appropriate interventions where needed, can improve reading proficiency in later grades. Pre-k access along with STEM opportunities in elementary and middle schools can improve math proficiency. Many local public libraries offer creative programming and contests to encourage children and youth to read more. The Tennessee State Library and Archives supports local libraries with training and materials for summer reading programs. The Tennessee STEM Innovation Network offers resources and support to help schools implement STEM programs locally. In addition, the Tennessee Department of Education supports summer learning camps for all students but especially to support those who have fallen behind.

## Indicator Definitions and History

**Children living in poverty** - Percent of children living in a household below the federal poverty line. Source: US Census Bureau Small Area Income and Poverty Estimates (2021).

**Severe housing cost burden** - Percent of households spending 50% or more of their income on housing. Source: American Community Survey, 5-year estimates (2017-2021). New to the county profiles, it replaces Fair Market Rent. It is more closely aligned to a KIDS COUNT national indicator, does not apply only to rental housing, and is a rate rather than a dollar value.

**Child care cost burden** - Child care costs for a household with two children as a percent of median household income. Source: Produced by the University of Wisconsin Population Health Institute using The Living Wage Calculator (2022) and Small Area Income and Poverty Estimates (2021). This is new to the rankings and replaces Median Household Income (MHI). We wanted an indicator expressed as a percentage rather than a dollar amount as well as one that related to a common family expense. Income is already somewhat measured in poverty estimates. In addition, this indicator uses MHI in its calculation.

**3rd to 8th grade reading proficiency** - Percent of third- to eighth-grade students who scored "on-track" or "mastered" on the Tennessee Comprehensive Assessment Program (TCAP) reading and language test. Source: Tennessee Department of Education (2021-22).

**3rd to 8th grade math proficiency** - Percent of third- to eighth-grade students who scored "on-track" or "mastered" on the Tennessee Comprehensive Assessment program (TCAP) math test. Source: Tennessee Department of Education (2021-22).

**Youth graduating high school on time** - Percent of ninth-grade cohort that graduates in four years. Source: Tennessee Department of Education (2021-22).

**Children who are food insecure** - Percent of children who sometimes lack access to adequate food. Source: Map the Meal Gap (2021). This is new to the rankings and replaces child and teen death rates, which, because the Department of Health has tightened its data suppression rules, is no longer available for all counties. We did not have an indicator for all counties to line up with overweight/obesity data in the national ranking, so we searched for an one related to nutrition and healthy eating.

**Children who lack health insurance** - Percent of children who lack health insurance. Source: US Census Bureau Small Area Health Insurance Estimates (2020).

**Babies born at a low birthweight** - Percent of live births where baby weighs less than 2,500 grams (5.5 pounds), averaged over three years. Source: Tennessee Department of Health (2019-21), with three counties estimated using American Community Survey 5-year data (2015-19, 2016-20, 2017-21). It has been in our county profiles from the beginning, though it was previously just one-year data. The Department of Health has tightened its data suppression rules, and dozens of counties' data were unavailable with one-year numbers. Three-year numbers still left three counties suppressed. Those were estimated from 5-year American Community Survey data.

**Children living in single parent families** - Single-parent households as a percent of all households with children. Source: American Community Survey, 5-year estimates (2017-2021). New to the county profiles, it replaces births to unmarried females, which in turn replaced teen births. As the Tennessee Department of Health tightened its data suppression rules, teen birth data was no longer available for all counties. Children born to unmarried females was always an attempt to roughly estimate teen births using different data. In moving from actual counts to ACS 5-year estimates, we decided to use this indicator over teen births as it affects families with parents of all ages.

**Children who are chronically absent** - Children who are absent 10 percent or more of school days for any reason, including excused/unexcused absences and out-of-school suspensions. Source: Tennessee Department of Education (2021-22). New to the county profiles, it replaces school suspensions, which have suppressed data for many counties.

**Victims of abuse or neglect per 1,000** - Child victims of abuse or neglect. In cases with multiple children each child is counted individually. The total is the number of children associated with substantiated cases of severe abuse and of determinations of "Services Court Ordered" or "Services Needed" in cases of non-severe abuse or neglect. Children with multiple cases during the year are counted only once. The rate is per 1,000 children. Source: Tennessee Department of Children's Services (2021). This has been in our county rankings from the beginning, but we have moved to counting children rather than cases.
