12. Prescribed drugs, dentures, and prosthetic devices; and eyeglasses prescribed by a physician skilled in diseases of the eye or by an optometrist.

12.a. Prescribed drugs

(1) Prescription outpatient drugs of any manufacturer which has entered into and complies with an agreement under Section 1927(a) of the Social Security Act will be a covered benefit for all TennCare members when prescribed by an authorized licensed prescriber, unless coverage is excluded or otherwise restricted by TennCare in accordance with the following:

(a) TennCare will not cover any drugs that are permitted to be excluded or restricted under the Social Security Act, Section 1927(d)(2), except agents when used to promote smoking cessation. Effective January 1, 2006, the Medicaid agency will not cover any Medicare Part D drug for full benefit dual eligible individuals who are entitled to receive Medicare benefits under Part A or Part B.

(b) Coverage of prescription drugs for Medically Needy beneficiaries will be limited to five (5) prescriptions per month, pursuant to which at least three (3) out of any five (5) prescriptions or refills in the same month must be generic and no more than two (2) prescriptions or refills in the same month may be for brand name (branded) products. Any branded prescriptions are subject to a requirement of prior authorization by the TennCare Bureau as a condition of coverage, and the State shall designate the covered outpatient drugs to which a prior authorization requirement applies. The monthly coverage limitation shall not apply to medications included on a list to be maintained by the State in accordance with the State's Uniform Administrative Procedures Act. Pharmacies, providers and beneficiaries shall be made aware of this list through appropriate notice. Individuals under the age of 21 who are receiving benefits under the EPSDT Program, as well as individuals 21 years of age or older who receive services in nursing facilities (NFs) or in intermediate care facilities for individuals with intellectual disabilities (ICFs/IID), will not be subject to this benefit limit.

STATE: TENNESSEE

LIMITATION ON AMOUNT DURATION AND SCOPE OF MEDICAL CARE AND SERVICES PROVIDED

(c) Buprenorphine and buprenorphine/naloxone products and sedative hypnotics for persons aged 21 and older are restricted to the quantity limits specified below:

(i) Generic buprenorphine, Subutex (buprenorphine), and Suboxone (buprenorphine/naloxone) products shall not exceed sixteen milligrams (16 mg) per day for a period of up to six (6) months from the initiation of therapy. For enrollees who are pregnant while receiving this dosage, the six-month period does not begin until the enrollee is no longer pregnant. At the end of either six-month period, the covered dosage amount shall not exceed eight milligrams (8 mg) per day.

(ii) Sedative hypnotic medications shall not exceed fourteen (14) pills per month for sedative hypnotic formulations in pill form such as Ambien and Lunesta, one hundred forty milliliters (140 ml) per month of chloral hydrate, or one (1) bottle every sixty (60) days of Zolpimist.

(2) No payment will be made for an innovator multiple source drug (brand name drug) if, under applicable State law, a less expensive multiple source drug could have been dispensed, but only to the extent that such amount exceeds the upper payment limit for such multiple source drug. In the event a prescriber indicates on the face of the prescription ("dispense as written") that he is requiring a specific brand name drug be dispensed for a specific TennCare member or if a TennCare member appeals coverage of a generic drug and the appeal process

results in approval of a specific brand name drug, then the reimbursement methodology for that prescription will the same as that for innovator single source drugs covered under the TennCare pharmacy program.

(3) A prior approval system for drugs requiring prior authorization will comply with Section 1927 of the Act and be administered by the pharmacy benefits manager (PBM) or pharmacy benefits administrator (PBA) under contract to TennCare to provide those services. The prior authorization process provides for a turn-around response by either telephone or other telecommunications device within twenty-four hours of receipt of a prior authorization request. In emergency situations, providers may dispense at least a seventy-two hour supply of medication.

(4) Participating pharmaceutical manufacturers will be furnished drug rebate utilization data and allowed to audit this data as set forth and according to the Centers for Medicare and Medicaid Services (CMS) guidelines pursuant to the Act.

(5) As provided by the Act, a new drug manufactured by a company which has entered into a rebate agreement may be covered subject to prior approval, unless the drug is subject to the allowable exclusion categories provided by the Act.

(6) As specified in section 1927(b)(3)(D) of the Act, notwithstanding any other provision of law, information disclosed by manufacturers shall not be disclosed by the State in a form which discloses the identity of a specific manufacturer or prices charged for drugs by such manufacturers, except as the Secretary determines to be necessary and/or to permit the Comptroller General to review the information provided.

(7) Separate agreements between the State and the manufacturers require CMS authorization. The State has CMS authorization for the collection of supplemental rebates that are negotiated with pharmaceutical manufacturers pursuant to the TennCare preferred drug list (PDL) as required by the Act. TennCare will report supplemental rebates from separate agreements to CMS.

(8) The state is in compliance with Section 1927 of the Social Security Act.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE TENNESSEE

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES – OTHER TYPES OF CARE

Except as otherwise specifically provided in this State Plan, the state will cover drugs of federal rebate participating manufacturers. The state is in compliance with reporting requirements for utilization and applicable restrictions to coverage. Pharmaceutical manufacturers can audit utilization data. The unit rebate amount is confidential and cannot be disclosed for purposes other than rebate invoicing and verification.

The state will be negotiating outcomes-based drug pricing discounts and supplemental rebates, in addition to the federal rebates provided for in Title XIX. Rebate agreements between the state and a pharmaceutical manufacturer will be separate from the federal rebates.

CMS has authorized the state of Tennessee to enter into value-based payment agreements and supplemental rebate agreements with drug manufacturers for drugs provided to Medicaid beneficiaries. The Supplemental Rebate Agreement (SRA) and the Value-based Agreement (VBA-Rx) submitted to CMS on June 14, 2021, have been authorized for pharmaceutical manufacturers' new agreements and renewals.

Savings recognized from value-based agreements and supplemental rebates received by the State in excess of those required under the national drug rebate agreement will be shared with the Federal government on the same percentage basis as applied under the national rebate agreement.

All drugs covered by the program, irrespective of a prior authorization agreement, will comply with the provisions of the national drug rebate agreement.

(9) Reserved.

(10) In accordance with the provisions of the Act, TennCare began the development and implementation of a preferred drug list (PDL) on July 1, 2003. TennCare will move to a single, statewide preferred drug list (PDL) for the entire pharmacy program. Furthermore, TennCare will employ a single pharmacy benefits manager (PBM) to process all TennCare pharmacy claims and respond to all prior approval requests.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: TENNESSEE

LIMITATION ON AMOUNT, DURATION AND SCOPE OF MEDICAL CARE AND SERVICES PROVIDED

Pursuant to 42 U.S.C. Section 1396r-8 the state is establishing a preferred drug list with prior authorization for drugs not included on the preferred drug list. Prior authorization will be provided with a 24-hour turn-around from receipt of request and a 72-hour supply of drugs in emergency situations.

Prior authorization will be established for certain drug classes, particular drugs or medically accepted indication for uses and doses.

The state will appoint a Pharmaceutical and Therapeutic Committee or utilize the drug utilization review committee in accordance with Federal law.

(11) When a provider with prescribing authority prescribes a covered medication for a TennCare member, and the prescription is presented at a pharmacy that participates in the TennCare program, the member is entitled to either:

(a) The drug as prescribed, if the drug is covered by TennCare and does not require prior authorization; or

(b) The drug as prescribed, if the prescribing provider has obtained prior authorization or established the medical necessity for the medication; or

(c) An alternative medication, if the pharmacist consults the prescribing provider when the member presents the prescription to be filled, and the provider prescribes the substituted drug; or

(d) An emergency supply of the prescribed drug, if the pharmacist is unable, when the member presents the prescription to be filled, to obtain authorization from either TennCare or the designated TennCare point-of-sale (POS) pharmacy claims processor to fill the prescription as written or the prescribing provider's authorization to substitute an alternative medication. If the member does not receive the medication of the type and amount prescribed, the pharmacist shall immediately provide written notice of the right to appeal, including the right to request continuation of services pending appeal, as required by the *Grier* Revised Consent Decree. The member's entitlement to receive an emergency supply of the prescribed drug is subject to the provisions as set out below.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: TENNESSEE

LIMITATION ON AMOUNT DURATION AND SCOPE OF MEDICAL CARE AND SERVICES PROVIDED

(12) The member is entitled to an emergency supply of the prescribed drug provided that:

(a) The manufacturer has a rebate agreement and the medication is not classified by the FDA or regarded by CMS to be less than effective (DESI, LTE or IRS drug); or

(b) The medication is not a drug in a non-covered TennCare therapeutic category or class of drugs or products such as:

1. Agents used for anorexia, weight loss or weight gain;
2. Agents used to promote fertility;
3. Agents not listed on the TennCare preferred drug list used for the symptomatic relief of cough and colds;
4. Agents used for cosmetic purposes or hair growth;
5. Agents not listed on the TennCare preferred drug list which are vitamin and mineral products;
6. Agents not listed on the TennCare preferred drug list which are nonprescription (over-the-counter) products and drugs, except for nonprescription drugs for smoking cessation.

TennCare will exclude from coverage all of the allowable exclusions described above; or

(c) Use of the medication has not been determined to be medically contraindicated because of the member's medical condition or possible adverse drug interaction; or

(d) The prescriber did not prescribe a total quantity less than an emergency supply, in which case the pharmacist must provide a supply up to the amount prescribed.

(13) There are some cases in which it is not feasible for the pharmacist to dispense an emergency supply because the drug is packaged by the manufacturer to be sold as the original unit or because the usual and customary pharmacy practice would be to dispense the drug in the original packaging (inhalers, eye drops, topicals, etc.). When coverage of an emergency supply of a prescription would otherwise be required and when, as described above, it is not feasible for the pharmacist to

dispense an emergency supply, it shall be the responsibility of TennCare to provide coverage for either the emergency supply or the usual dispensing amount, whichever is greater.

(14) Pharmacies should bill prescriptions for TennCare members with other third party insurance to the appropriate third party payer (primary insurer) and bill any applicable copays for covered drugs to TennCare.

(15) Covered drugs under the TennCare Pharmacy Program shall be limited to:

(a) Those legend drugs covered under the Medicaid Drug Rebate Program as described in Section 1927 (k) of the Social Security Act and outlined in the TennCare Pharmacy Program Preferred drug list; and

(b) Non-legend drugs which are listed on the covered OTC drug list; and

(c) Legend and non-legend drugs which are covered and prescribed by an authorized prescriber; and

(d) Those drugs which are not included in the list of excluded therapeutic categories or classes contained in Section 1927(d) of the Social Security Act (listed above in (12)(b); and

(e) Those drugs not considered to be DESI, less-than-effective (LTE) or identical, related or similar (IRS) to DESI drugs; and

(f) Select active pharmaceutical ingredients (APIs) and excipients used in extemporaneously compounded prescriptions when dispensed by a pharmacist, who is employed by a pharmacy participating in the PBM National Network or the TennCare Network pursuant to a prescription issued by a licensed prescriber following all State and Federal laws. This includes only APIs and excipients that are determined by the State to be cost effective to TennCare (compared to other covered alternatives). APIs that have been identified as being cost effective by TennCare are identified at http://www.tn.gov/tenncare/pro-pharmacy.html.

13.d. Rehabilitative Services

A. Rehabilitative Services by Community Mental Health Centers

Rehabilitative services which are restricted to mental health services are covered for eligible Medicaid recipients. Providers of rehabilitation services will meet the following criteria:

1) provide services to individuals with mental illness;

2) provide an array of community mental health services which, at a minimum include outpatient services, crisis intervention services, and symptom management services;

3) comply with applicable "Licensure Rules of the Tennessee Department of Mental Health and Mental Retardation" and have appropriate licensure;

4) comply with all applicable program standards as defined by "Community Mental Health Center Standards";

5) adhere to the Bureau of Medicaid's and the Department of Mental Health and Mental Retardation's fiscal reporting requirements;

6) have a documented ability to provide off-site mental health services; and

7) offer services that are compatible with the Department of Mental Health and Mental Retardation's Mental Health Master Plan.

It is important for providers to meet these criteria in order to assure that recipients of services under the rehabilitation option receive the highest quality and most appropriate services possible. The services to be covered under the rehabilitation services option meet the definition of rehabilitation services found in 42 CFR 440.130(d) and include the following:

STATE TENNESSEE

LIMITATION ON AMOUNT, DURATION AND SCOPE OF MEDICAL CARE AND SERVICES PROVIDED

13.d. Rehabilitative Services (continued)

1) individual therapy treatment by individual interview including psychotherapy, relationship therapy, insight therapy, psychoanalysis, and counseling;

2) group therapy treatment through the use of group interactions including group psychotherapy, group psychoanalysis, therapy with groups of families or married couples or similar services;

3) family therapy applied to a family as a unit, where significant members of the family are seen together;

4) couple therapy through planned therapeutic sessions involving two people in a marital relationship who are seen together as a unit;

5) medication maintenance treatment through individual interview and through the use of psychotropic drugs, including prescribing medication and monitoring the patient's condition and progress;

6) psychological evaluation and testing through evaluation of cognitive processes and emotions and problems of adjustments in individuals or in groups, through interpretations of tests of mental abilities, aptitudes, interests, attitudes, emotions, motivation and personality characteristics, including the interpretation of psychological tests of individuals;

7) psychiatric evaluation using the psychodiagnostic process, including a medical history and mental status, which notes the attitudes, behavior, estimate of intellectual functioning, memory functioning, orientation and an inventory of the patient's assets in a descriptive (but not an interpretative) fashion, impressions, and recommendations;

8) symptom management services aimed exclusively at medical treatment which includes ongoing monitoring of the patient's mental illness symptoms and response to treatment interventions to help the patient manage his/her symptoms, assistance with medication compliance and the understanding of the effects of

medication, introduction of the patient to symptom management techniques to alleviate symptoms not reduced by medication, assisting the patient in developing coping skills, and consultation with family, legal guardian, and/or significant others to promote understanding and management of the patient's mental illness; and

9) crisis intervention services using short term, intensive services, including crisis oriented counseling, support, and medication, aimed at stabilizing individuals experiencing a psychiatric crisis in order to assist them to return to their pre-crisis level of functioning, and services to assist individuals and members of their natural support systems to resolve situations that may have precipitated or contributed to the crisis.

Service providers will be offering a comprehensive array of mental health services to eligible individuals throughout the state of Tennessee and will be offering them in the most appropriate settings possible (for example, their homes). All services to an individual are provided as directed in an individualized treatment program by a physician or other licensed practitioner of the healing arts within the scope of his/her practice under state law. The treatment plan also directs the duration and scope of services to be provided in order to achieve the goals and objectives of the plan. Therefore, it can be assured that each service to be offered under the rehabilitation services option will be sufficient in amount, duration, and scope to reasonably achieve its purpose.

Provision of services where the family is involved will be directed to meeting the identified client's treatment needs. Services provided to non-Medicaid eligible family members independent of meeting the identified client's treatment needs are not covered by Medicaid.

B. Rehabilitative Services by Community Mental Retardation Clinics

Rehabilitative services which are restricted to Community Mental Retardation Clinics are covered for eligible Medicaid recipients. Providers of rehabilitation services shall meet the following criteria:

LIMITATION ON AMOUNT, DURATION AND SCOPE OF MEDICAL CARE AND SERVICES PROVIDED

13.d. Rehabilitation Services (continued)

B. Buprenorphine Enhanced Supportive Medication-Assisted Recovery and Treatment (BE-SMART)

BE-SMART is comprehensive treatment and recovery related supports for individuals with opioid use disorder. The BE-SMART benefit is a coordinated set of services consisting of psychosocial assessment and development of a treatment plan, individual and group counseling, peer recovery services, and care coordination in addition to opioid-agonist therapy. Opioid-agonist therapy used will be buprenorphine products that have been FDA approved for opioid use disorder treatment. Comprehensive substance abuse and addiction treatment is offered to participants to provide a full continuum of care within community-based settings.

BE-SMART is restricted to participants who have been diagnosed with substance use disorder and for whom BE-SMART is determined to be medically necessary. Each participant will have an individual treatment plan comprising those services designed to meet the participant's identified needs.

The following matrix provides a description of each service within the BE-SMART benefit, as well as the practitioners qualified to furnish each service.

16. Inpatient psychiatric facility services for individuals under 22 years of age.

Inpatient psychiatric facility services for individuals under 22 years of age are limited to an acute level of psychiatric hospital care for recipients who meet state established medical necessity criteria as specified in subparagraph (w) of paragraph (1) of state administrative rule 1200-13-1-.03. Acute psychiatric inpatient care is hospital based treatment provided under the direction of a physician for a psychiatric condition which has a relatively sudden onset and a short, severe course. The psychiatric condition should be of such a nature as to pose a significant and immediate danger to self, others, or the public safety or one which has resulted in marked psychosocial dysfunction or grave mental disability of the patient. The therapeutic intervention should be aggressive and aimed at expeditiously moving the patient to a less restricted environment.

Effective October 1, 1992, education costs will be considered as a part of the operating component, when educational services are an integral part of a recipient's acute inpatient psychiatric care involving active treatment, pursuant to an individual plan of care developed by an inter-disciplinary treatment team, and ordered by the recipient's attending physician.

23.a. Transportation

Transportation in compliance with 42 CFR 440.170 will be covered under the following conditions:

(1) Emergency ambulance transportation shall be provided for recipients in case of injury or acute medical condition where the same is liable to cause death or severe injury or illness as determined by the attending physician, paramedic, emergency medical technician, or registered nurse. Coverage shall be limited to one-way transportation to the nearest appropriate facility. Appropriate facility shall mean an institution that is generally equipped and staffed to provide the needed hospital care for the illness or injury involved. The fact that a more distant institution may be better equipped to care for the patient shall not warrant a finding that a closer institution does not have "appropriate facilities". An institution shall not be considered an appropriate facility if there is no bed available.

Coverage of air ambulance transportation shall be limited to situations where transportation by land ambulance was contraindicated because the point of pickup was inaccessible by land vehicle or the time/distance to reach a hospital with appropriate facilities was prohibitive because of the patient's medical condition.

(2) Non-Emergency Ambulance services will be reimbursed when the recipient's condition is such that use of any other method of transportation is contraindicated. For reimbursement, a physician, paramedic, emergency medical technician, registered nurse, or licensed practical nurse must prepare written documentation that the patient's condition warrants such services. This documentation must be attached to the ambulance provider's request for payment. Assurance of transportation in accordance with 42 CFR 431.53 is provided in section 3.1-D of the Tennessee State Plan.

(4) Volunteer transportation services such as those provided by friends, neighbors and family members will be covered for recipients who are determined eligible for transportation services.

(5) The Bureau of Health Services Administration (HSA) and Health System Developments (HSD) through intradepartmental agreements are responsible for negotiating the most cost effective provider agreements between commercial providers and Medicaid. HSA and HSD are also responsible for actually arranging transportation services and for monitoring provider compliance with provider agreements. State employees or other employees of HSA and HSD who transport recipients will do so only as a last resort. Reimbursement for transportation services provided by state employees will be requested at the administrative match rate.
