

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: TENNESSEE

DEFINITION OF SPECIALIZED SERVICES

Specialized Services for Individuals with Mental Illness - Specialized services is defined as those services specified by the State which, combined with services provided by the nursing facility, results in the continuous and aggressive implementation of an individualized plan of care that:

Is developed and supervised by an interdisciplinary team, which includes a physician, qualified mental health professionals and, as appropriate, other professional;

Prescribes specific therapies and activities for the treatment of persons experiencing an acute episode of serious mental illness, which necessitates supervision by trained mental health personnel; and

Is directed toward diagnosing and reducing the resident's behavioral symptoms that necessitated institutionalization, improving his or her level of independent functioning, and achieving a functioning level that permits reduction in the intensity of mental health services to below the level of specialized services at the earliest possible time.

Specialized Services for Individuals with Mental Retardation - A continuous program for each individual, which includes aggressive, consistent implementation of a program of specialized and generic training, treatment, health services and related services that is directed towards (1) the acquisition of the behaviors necessary for the client to function with as much self determination and independence as possible; and (2) the prevention or deceleration of regression or loss of current optimal functional status. Specialized services does not include services to maintain generally independent clients who are able to function with little supervision or in the absence of a continuous specialized services program.
